To My Wife,

IN THE COMPILATION OF THIS WORK, THIS VOLUME IS

Affectionately Dedicated.

PREFACE.

THE OHIO TEACHERS' BLUE BOOK is the first work of the kind ever published for this State, and if properly sustained and encouraged, it is the intention to correct and publish annually, adding new schools and other features continually, until the work will be a complete guide to the grand system of Public Schools for which our State is so well and favorably known.

The compilation of the Blue Book has taken considerable time and careful work, as in a number of instances the requests for the information would not be filled out, unless sent for several times, and a number of the reports being incomplete necessitated other requests for correct information. There are a few not yet in, but in their stead are given a list of 400 Township Clerks, portions of Ohio School Laws, School Statistics for 1885, and other items of interest to teachers. It would be entirely too large a venture to include all the schools of the State in a first attempt, and as the line had to be drawn somewhere, the schools in the towns and cities of 500 and upwards, were selected, and for the most part heard from. In most instances the information was most cheerfully given, and some live superintendents gave me statistics of their schools, (other than that called for,) and I regret that I can not give space to them in this volume. To them and the teachers who encouraged me in the compilation of this work, my thanks are especially due. The Blue Book contains the names of over 2,100 School Board officers and members, (including 400 Township Clerks,) and more than 5,500 names of teachers now in position in the Public Schools of Ohio. For the school officer it gives a large list of excellent teachers

from which to select; and to the teacher desiring to change position it gives the names and addresses of a large list of Board members, together with salaries given in other cities, the number of weeks the schools are in session, &c. Teachers and School Board officers will please notify me of any changes in teachers, and give names of those appointed to fill vacancies.

Acknowledgments—My thanks are due to every Superintendent or member of School Board who so kindly furnished me the reports of their schools, and to the following gentlemen for so kindly furnishing desired information. To T. A. DeWeese, author of "The Indiana Teachers' Blue Book," and "A Key to the Higher Institutions of Learning;" Hon. Leroy D. Brown, State School Commissioner, and his assistants; Louis A. Skilton, and Hon. J. J. Burns, Superintendent of Dayton Schools.

Number of Years—The figure after the names of the superintendents and teachers indicate the number of school years (not including the present) that they have taught in the schools in which they are now employed. It is not given as a teachers' experience, as he may have taught fifteen or twenty years in other schools and but recently accepted the position he now holds; but it shows, to a certain extent, the appreciation in which they are held by their local boards of education.

Salaries—The yearly salary of superintendents, principals and special teachers are given, and the monthly salaries of other teachers (given at end of report). The lowest and highest monthly salary applies to all teachers whose salary is not given at the heading or in body of their school report.

Advertisements—One very worthy and conscientious superintendent refused to send in his school report, be-

cause he thought the book was an "advertising scheme." It most assuredly is an advertising scheme—it advertises the schools of the State without cost to them. The advertisements I have secured, instead of being detrimental to the publication, will be a positive aid to teachers and school officers. The schools, publishers and dealers in school supplies and specialties are carefully selected and are reliable. In sending for price-lists, or in ordering, you will confer a favor on the advertisers and myself by mentioning this publication.

Principals of High Schools—Will confer a favor by sending in as early as possible, the branches taught by each teacher in the high school department, where there are two or more teachers.

To Superintendents and Boards—In a work of this character it is as impossible to spell every proper name correctly, as it is to correctly read the different writing of over three hundred reports sent in. Each has its own distinctive peculiarities, its different curves, dots, crosses and different formings of letters. Such mistakes will be quickly noticed by you and the teachers reading this book, and will you aid me in making it as nearly perfect as possible? Please to note each mistake in spelling, salary, or any other item in the publication of your report and write me immediately, so that the mistake can be rectified; also, if there are any teachers or Board members' names omitted please furnish them, so as to make your report complete.

County Institute Committees—I would like the dates of the meetings of all the County Institutes in Ohio, and will be pleased to have them sent soon.

Hoping the Blue Book will fill its mission, meet with the approval of those in charge of our schools, and that you will furnish me with any educational items of general interest for publication. Respectfully,

JOSEPH BOYD.

QUERIES

A Monthly Review of Literary, Art, Scientific, and General Educational Questions of the Day.

TERMS: — $1.00 a Year; Seven Copies for $6.00; Single Copies, 10 cts.

Conducted by C. W. MOULTON.

DURING the short period of twelve months QUERIES has attained an unparalleled success, and the number of its readers at present is surpassed by few literary publications in America. It has met with cordial acceptance wherever introduced, and its interest and excellence has been generally acknowledged. Teachers, students, literary circles and individual readers find it entertaining and instructive.

Each number presents wholesome Editorials, and Multum in Parvo; a department of Questions and Answers, Prize Questions, and Questions of Judgment; Reviews, Notes and News; Open Congress; The Query Box; Recent Publications; The Editor's Table.

QUERIES has been endorsed in a practical manner by over five thousand teachers; and has been introduced as a supplementary text-book in one thousand schools.

The publication of QUERIES was begun in January, 1885. The earlier numbers are now out of print, but the Publishers are prepared to furnish reprints of the Questions and Answers that appeared in those numbers.

One of the oldest and most thorough Colleges in the Country, is the

Miami Commercial College!

DAYTON, O.

WILT & SUNDERLAND, Principals.

It has been established for Twenty-Five Years, and many thousands of its graduates are in prominent positions.

Charges are moderate, and board in excellent private families may be had at low rates.

From JOHN HANCOCK, LL. D., late Supt. of the Public Schools of Dayton, O. DAYTON, OHIO, Oct. 4, 1879.

Mr. A. D. WILT is an educator of a deservedly high reputation. He is also a gentleman of thorough integrity, and what he promises he will perform.

The Miami College, of which Mr. Wilt is Principal, is among the very best schools of its class in the country, and I most heartily commend it to young men desirious of obtaining a sound mercantile education.

You are invited to send for circulars.

SCHOOL STATISTICS FOR 1885.

The annual report of State School Commissioner L. D. Brown is an interesting document. Among the recommendations made are the following:

The school laws should be so modified and improved as to define clearly the relations existing among teachers, directors in sub-districts and township boards of education, in order to fix the responsibility somewhere; that there is no longer any reason for the existence of special districts; that the schools in any township should be controlled by a single board of education possessing sufficient authority to secure uniformity in rules, regulations, etc; that there should be a state board of education with authority to decide what is a high school, a normal school, a college, or a university; that there should be a fixed standard for the granting of certificates to teach, and that the printed questions used in examinations should be issued either by the State Commissioner of Schools or by a state board of education.

The following figures are gleaned from the report:

"Number of youth of school age, September, 1885, 1,095,469, as compared to 1,082,295 in 1884; number of districts, 2,099; sub-districts, 11,798; school-houses in townships, 11,155; erected during the year, 455, at a cost of $1,194,821; value of all school-houses, $27,969,757; teachers employed, 24,628; weeks of school in townships, 29; elsewhere, 34; enrollment, 774,660; average daily attendance, 517,569; school officers, 51,762: receipts, $13,628,709.33; expenditures, $10,093,-938.17.

"The receipts come from interest on irreducible school fund, sale of school lands, state school tax, etc. The increase of the receipts was $372,332.76. This is expended for teachers' and superintendents' salaries, new buildings, and other purposes, such as for janitors, fuel, and other contingent expenses.

"The number of colored youth is 25,586, being an increase of only 239.

"The number of unmarried youth in Ohio between sixteen and twenty-one years in 1885 is 26.05 per cent. of the entire enumeration, showing an increase as follows: 1884, 25.32 per cent.; 1883, 25.03; 1882, 23.44; 1881, 23.71; 1880, 24.96; 1879, 26.19; 1878, 26.19; 1877, 26.27; 1876, 25.51; 1875, 25.60; 1874, 24.69.

"The expenditure for new buildings was: In 1875, $1,010,786; in 1876, $1,159,350; in 1877, $803,146; in 1878, $843,822; in 1879, $580,801; in 1880, $711,835; in 1881, $649,499; in 1882, $1,123,688; in 1883, $1,211,-377: in 1884, $991,128; in 1885, $1,194,821.

"Officers—Directors, 32,847; members township boards, 10,949; clerks and treasurers of townships, 13,847; members of special boards, 4,000; city examiners, 239; county examiners, 264; state, 5.

"Teachers—Males, 10,787; females, 13,841; total increase of only 163, of which 88 were males and 75 females.

"Average wages per month — Townships, gentlemen $38, ladies $28; city primary schools, gentlemen $49, ladies $39; high schools, gentlemen $72, ladies $59. The average increase in wages per month in both country and graded schools was $2.

"In 198 districts school was taught less than twenty-four weeks, as required by law.

"The number studying the several branches were as follows: Alphabet, 91,295; reading, 659,504; spelling, 616,534; penmanship, 630,-856; arithmetic, 578,683; geography, 320,153; English grammar, 225,526; composition, 153,348; drawing, 141,716; vocal music, 192,-698; map drawing, 58,520; oral lessons, 164,383; United States History, 75,905; physiology, 7,391; physical geography, 9,768; natural

philosophy, 4,965; German, 32,591; algebra, 15,543; geometry, 5,110; trigonometry, 1,498; surveying, 190; chemistry, 1,762; geology, 808; botany, 2,811; astronomy, 1,425; book-keeping, 3,226; natural history, 1396; mental philosophy, 774; moral philosophy, 245; rhetoric, 3,526; logic, 39; Latin, 7,296; Greek, 341; French, 326; general history, 4,683; literature, 5,162; science of government, 2,411; political economy, 667. There were 11,803 pupils enrolled in private schools.

"Certificates to teach were granted to 11,348 gentlemen and 9,988 ladies, and 8,464 gentlemen and 8,871 ladies were rejected, the smallest per cent (20) being in Monroe County, and the largest (70) in Clinton County. The cost per capita for instruction, as shown by the enrollment, was $11.50."

EDUCATIONAL NOTES.

An organization was effected in December by the State Association of School Examiners, the objects being "to elevate the standard of professional teaching, to unify the methods of examination, and to recommend needed legislation in these directions;" officers were elected as follows: President, Dr. A. B. Johnson of Avondale; Vice-President, A. C. Deuel of Urbana; Secretary, S. F. DeFord, Ottawa; Treasurer, F. B. Dyer, Batavia; Executive Committee, R. W. Stevenson, Columbus; J. W. White, Springfield; Geo. W. Welsh, Lancaster. About half the counties in the State were represented.

The National Meeting of Educators will be held at Topeka, Kan., July 14, 15, & 16, 1886.

Central Ohio Teachers' Association meets in Columbus in November. Eastern meets two days after Thanksgiving, at St. Clairsville. Northwestern meets at Lima during the Holiday Week in December; and Northeastern Ohio meets every two months at Cleveland. State Association in July.

The number of volumes added to the State Library during 1885, was 1,477; making the number now in the Library 52,916.

The State of Ohio owns three Universities—The Ohio State University at Columbus, the Ohio University at Athens, and the Miami University at Oxford.

Ohio Teachers' Reading Circle.

COURSE OF READING SELECTED FOR THE THIRD YEAR.

The following books have been adopted by the Board of Control for the third year's work of the Reading Circle—1885-6:

I. *Pedagogy.*—Joseph Payne's Lectures on the Science and Art of Education.

II. *Literature.*—Shakespeare's Richard III. and The Merchant of Venice; Scott's Ivanhoe; and Tennyson's Princess.

III. *History.* United States History from the close of the war 1812 to the present time.

IV. *Natural Science.*—The Science Primer of Physics, by Balfour Stewart.

All members of the Circle are expected to read at least one educational periodical.

Price of Books.

The New England Publishing Company, of Boston, will furnish copies of Payne's Lectures at 60 cents each in cloth, and at 40 cents in paper.

Copies of the Merchant of Venice and Richard III. (Kellogg edition,) can be obtained from the publishers, Clark & Maynard, of New York, at 25 cents each.

An edition of The Princess has been published separately for the use of the Reading Circle by Houghton, Mifflin & Co., of Boston, and copies in good paper covers will be sold to members at 12 cents each.

Many editions of Ivanhoe, both in cloth and paper, are in the market. A good copy, in cloth, of the Alta edition, can be procured for 40 cents.

D. Appleton & Co., of New York, who publish the Science Primer of Physics, will supply the same to members of the Circle at 40 cents per copy.

A reduction from the prices named above will probably be made when the books are ordered in large quantities.

Membership Fees.

At a recent meeting of the Board of Control it was decided to charge a Membership Fee of 25 cents to all members of the Circle. This sum should be paid at the time of organization to the President, or Treasurer, of the Local Circle, and should be transmitted by him to the Corresponding Member for the County, who will remit the same to the Treasurer of the Board of Control.

The amount thus received from fees of members is needed for printing, postage, and the necessary expenses of the organization.

The books adopted for each year of the Course are worthy of a place in the library of every teacher, and each member of the Circle will get a return of more than the membership fee in the reduced price of the books purchased.

All members who complete the work of the year will be entitled to a certificate without additional payment.

Corresponding Members.

The Board of Control request the teachers of each county to elect at their next Institute a corresponding member, and to report the name at once to the Corresponding Secretary of the Board.

It shall be the duty of the member thus elected to superintend the organization of local circles, to distribute such circulars and documents as may be issued by the Board from time to time, and to procure and fill out certificates for those who desire them. He should also make an annual statement to the Corresponding Secretary of the Board of Control of the number of local circles and of members, and of the work done in the county during the year. This report should be sent to the Secretary not later than the middle of June, in order that he may make a full report to the Ohio Teachers' Association at the State meeting.

Until a corresponding member shall be elected by the teachers, the person already appointed by the Board of Control will continue to discharge these duties.

As the success of the Reading Circle movement depends to a very great extent upon thorough and efficient organization in each county, it is hoped that those who have this matter in charge will make an earnest effort to secure as large a membership as possible in their respective counties for the coming year, that the beneficial results of this Course of Reading may be experienced by as great a number as possible of the teachers of the State.

Course of Reading Previously Adopted.

FIRST YEAR—1883-4.

I. In *Pedagogy*, one of the following: Hailman's History of Pedagogy, Krusi's Pestalozzi, Quick's Educational Reformers.

II. In *English Poetry*, one of the following: Longfellow, Whittier, Lowell—life and poetical works.

III. In *American History*, the discovery and early settlement of North America to 1776.

SECOND YEAR—1884-5.

I. *Pedagogy.*—Currie's Common School Education, or Calderwood on Teaching.

II. *Literature.*—Shakespeare's Julius Cæsar, and Irving's Sketch Book.

III. *United States History.*—The Revolution, and the Constitutional Period to the close of the war of 1812.

IV. *Natural Science.*—Brown's Physiology, or Science Primer of Physiology and Hygiene.

As, with the exception of history, the Course for one year is not dependent upon another, newly organized Circles may begin with any year they choose, and follow any order they prefer, provided the Course for each year is taken entire. The Board of Control, however, recommend that all Circles for the next year take up the third year's Course, in order that all members may avail themselves of any assistance that may be furnished during the year through the columns of the *Educational Monthly*, or in other ways.

FELLOW-TEACHERS:—Since our first organization Reading Circles have been established in New York, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Kansas, and Nebraska. At the meeting of the National Educational Association at Saratoga the reports given indicated a large membership and a growing interest in the work. Ohio originated the movement, let her not take a second rank.

Many Circles have already been organized, and reports received from different parts of the State are favorable and encouraging.

May we hope that during the coming year Circles will be organized in *every county*, and that we shall have a membership in *every township* in the State. We need the inspiration that comes from associated study. Let us make use of the means thus afforded for the attainment of a higher culture, and a better preparation for the important work in which we are engaged.

SUPPLEMENTARY READING.

VAILE'S GRADED MONTHLY SUPPLEMENTARY READING trains pupils to read, and to read with their eyes open, and with their thoughts about them. There is nothing like these exercises in language and reading. Their cheapness will surprise you. Four grades —1st, 2d, 3d, and 4th readers. Send ten one-cent stamps for ten trial copies. Don't fail to tell what grade you want.

From John W. Dowd, Superintendent, Toledo, Ohio.

EASY LINES, FRESH LEAVES, etc., are working admirably. They are regular monotony-killers and eye-openers. Our teachers like them, and the better the teacher the better she likes them.

"THE WEEK'S CURRENT."

Four large pages. WEEKLY. A clean, able, and careful summary of the news of the week for school use. It is a WEEKLY, hence its news is never stale. Contains a valuable department in English Literature. Try it and you will not do without it in your school. Designed for 4th and 5th Reader classes, and high school. Send ten one-cent stamps for ten trial copies, alike or assorted, as you designate.

VAILE'S PRIMARY WORD CASE.

Contains over 1,800 separate WORD CARDS and 200 ALPHABET CARDS, all in a strong compartment case. The word cards include every word contained in the first 30 pages of any standard First Reader. Without doubt the most perfect, the most complete, and the cheapest outfit of the kind in the market. Examination copy, 75 cents. Five copies or more, 60 cents each. Twelve copies or more, 50 cents each. Always postpaid.

E. O. VAILE, OAK PARK (CHICAGO) ILL.

INTELLIGENCE is a live school journal out of the usual line. Its writers are among the ablest educators in the country. Send for free sample copy. Address as above.

MAURY!

$1.50 Remitted to us will bring by return mail a set of Maury's New Geographies, Two-Book Series, viz: "Elementary" and "Revised Manual." This offer is made to teachers for specimens of what is confessedly the leading and most widely popular series of School Geographies now extant.

MAURY'S Revised Physical Geography.

A book of unequaled interest and popularity. To be found in libraries and best schools in every section of the country. Specimens, $1.20.

CLARENDON DICTIONARY.

A great favorite. Gives words in current use. Pronunciation made easy by phonetic spelling. Contains words of recent introduction. Handy; easy to consult; and of highest authority. Specimens, 45 cents.

EASY ALGEBRA.

This is a little work by Prof. C. S. VENABLE, of the University of Virginia. It is the most popular and useful primary mathematical work issued for a long time. Teachers commend it for being what they want, and *all they want* of algebra in a majority of schools. Specimens, 60 cents.

MAURY'S WALL MAPS.

Beautiful, useful, and substantial helps that should be in every school. The set consists of eight maps from 26x34 to 30x48 in size, and very convenient. Nothing better in their line. Furnished at the low price of $10 a set.

Send name for circulars and price lists.

SUCCESSFUL BOOKS.

The Franklin Arithmetics, (*Primary, Elementary, Written.*) By EDWIN P. SEAVER and GEO. A. WALTON.

Fresh, clear, practical text-books. Oral exercises so combined with written work, that the same analysis answers for both processes. Decimals and Integers are TREATED TOGETHER whenever practicable, thus avoiding a multiplicity of rules. Drill tables, and exercises thereon, are given, by which the pupil's work can be INDEFINITELY EXTENDED without requiring the teacher to search other books for TEST-EXAMPLES.

The Franklin Elementary Algebra.

A compact working text-book, presenting a course of study that is sufficient to meet the requirements for admission to any College, and such as is pursued in the best High Schools and Academies.

Seaver & Walton's Mental Arithmetic.

A new, complete, and practical text-book; up with the times in every particular: a fresh and systematic presentation of the subject. Confidently presented as THE BEST.

Scudder's History of the United States.

BY HORRACE E. SCUDDER.

The leading characteristics of this new and beautiful text-book are: A well considered text; a logical division into periods; a suggestive method; topical analysis for review; accurate and clear maps (colored and uncolored); beautiful illustrations, superior mechanieal execution; a low price.

Worcester's New Spellers, (*Primary, Pronouncing.*)

The prominent features of this book are: Careful selection, classification, and arrangement of words; variety in the KIND of lessons; numerous Dictation Exercises.

Walton & Cogswell's Book of Problems in Arithmetic.

This little book of only 36 pages gives over 12,000 examples for practice, embracing all the applications of Arithmetic, from Notation to (and including) Percentage, Interest, and Discount. A copy will be mailed to any address on receipt of 20 cents; or, with the Key, containing answers, on receipt of 60 cents.

Adam's Advanced Speller.

New Edition, revised and enlarged, with the addition of several Dictation Exercises.

Walton's Arithmetical Table.

For practice in the fundamental operations of Arithmetic. Largely used and very popular.

MERRILL'S ELEMENTARY GEOGRAPHY,

BY SANFORD NILES.

OHIO EDUCATIONAL MONTHLY: We have examined this book with a good deal of interest. It differs widely from the ordinary geographical text-book. It consists of a series of reading lessons, with suggestive hints and questions. The aim is to give the pupil actual knowledge rather than to load his memory with words. There is little chance for the old-time lesson grinding.

It is a pleasure to get hold of such a book as Merrill's Elementary Geography, etc.

JOSEPH R. HARKER,
Prin. Whipple Academy, Jacksonville, Ill.

The work of an educator of wide experience, carefully written and well adapted to the actual character of child mind, etc.

CLARENCE M. BOUTELLE,
Supt. Schools, Decorah, Iowa.

I think it an excellent book.

PROF. HENRY McCORMICK,
State Normal, Illinois.

I regard it as the best Elementary Geography published, etc.

SCHOOL TABLET

AND FILE FOR

EXAMINATION PAPERS.

UNIQUE.——USEFUL.——NECESSARY.

COMMENDED BY ALL.——NOTHING LIKE IT EVER ARRANGED.

DIRECTIONS:

Write the examination on the loose tablet and submit (without folding) to the teacher for marking.

After the papers are returned, file them on the gummed paper stubs in such order as suits your taste.

Teachers will find the file convenient for the preservation of all the papers of a certain grade.

The innumerable uses which can be made of the "TABLET AND FILE," aside from that for which it was especially designed, are so evident that we refrain from suggestions.

The tablet has forty-eight leaves of good legal cap paper. The gummed paper stub has fifty leaves. On the front cover is a fine electrotype cut, showing correct position for writing.

Ask your bookseller for it.

RETAIL PRICE, 35 CTS. POSTAGE, 15 CTS.

Chautauqua College of Liberal Arts!

CENTRAL OFFICE:

PLAINFIELD, N. J.

The Chautauqua College of Liberal Arts is an institution for furnishing instruction chiefly by correspondence. It is designed to aid the following persons in the acquisition of a liberal and practical education:

Those young people who are not able to leave home or business to attend college.

Those in more advanced years, who, having begun a college course, were compelled by circumstances beyond their control to abandon it, and who have never been able to resume it.

Those mature men and women, who, at the maximum of their mental powers, desire to make amends for the educational omissions of their earlier years. It is organized as given below.

OHIO STATE LAWS.

The following changes have been made in Ohio School Laws since publication in 1883:

Section 354. There shall be elected triennially, at the general election for State officers, a State Commissioner of Common Schools, who shall hold his office for the term of three years, from the second Monday of July succeeding his election; and in case of a vacancy occurring by death, resignation, or otherwise, the Governor shall fill the same by appointment.

Provided, that the State Commissioner of Common Schools now in office shall continue to hold his office until three years from the second Monday of July succeeding his election.

Section 2690*c*. That no tax shall be levied upon the property of any such city, by the council thereof, or any other authority therein, except by the boards of education in cities of the first grade of the first class, for school and educational purposes, until approved by the Board of Tax Commissioners aforesaid.

Section 2690*i*. In all cities of the first grade of the first class to enable the city comptroller and the boards aforesaid to estimate correctly the levies and appropriations aforesaid, the authorities of all the city institutions, except boards of education, as well as every head of a department or office in the city, for whose wants provision is to be made, including the trustees of the commercial hospital, shall report to the comptroller, on or before the first Monday in March in each year, the amount of money needed for their respective wants for the ensuing year, said estimate to be given for each month. The comptroller, as well as the boards of tax commissioners and common council, shall revise them, and if deemed proper, shall reduce them so far as to prevent unnecessary expenditure, and to bring them within fair limits to the other expenditures required by the city.

Section 2690*j*. No liability whatever shall be created against any city of the first grade of the first class, and no expenditures shall be

made for the same, except for school and educational purposes, as provided for by the boards of education therein, unless it be previously covered by an appropriation sanctioned both by the boards of tax commissioners and common council as above provided, except from the contingent fund of fifty thousand dollars herein provided for; and any tax levied for any purpose whatever, except for school and educational purposes, as provided for by the boards of education therein—in such city without the concurrence of the Board of Tax Commissioners and common council as herein provided, shall be void; and all laws and parts of laws conflicting with the provisions of this act are hereby repealed. Any attempt to create a liability against any such city contrary to the provisions of this act shall be null and void.

Section 3886. Each city having a population of ten thousand, or more, by the census of 1880, including the territory attached to it for school purposes, and excluding the territory within its corporate limits detached for school purposes, shall constitute a school district, to be styled a city district of the first class; and each city that has heretofore been constituted a city district of the first class shall remain such.

Section 3897. In city districts of the first class the Board of Education shall consist of two members from each ward, except in districts organized under a law providing for one member only for each ward, in which districts the board may at any time, by a vote of the majority of its members, provide that thereafter each ward shall be represented by two members, aud thereupon proceed to choose one additional member for each ward, to serve until the next annual election for city officers, and until the election and qualification of his successor; and each member of the board shall be an elector of the ward or of the township, or part of a township, which for school purposes has been or may be attached to said ward for which he is elected or appointed; provided that in city districts of the first class, having a population, according to the last federal census, of one hundred and fifty thousand, and over, the board of education shall consist of thirty-seven members, twelve of whom shall be elected at the April election of the current year, to hold office as follows: The four members who receive the highest number of votes, for three years; the four who receive the next highest number of votes, for two years; the four who receive the next highest number of votes, for one year; and thereafter there shall be elected annually four members to serve for three years. In case of a tie vote the choice of

terms shall be determined by lot, and the remaining twenty-five members shall consist of those members of the board of education elected at the April election in 1879, and whose terms of office do not expire until April, 1881; that, beginning with the April election of 1881, one member shall be elected from each ward of said cities; provided that, in cases where for school purposes additional territory is attached to a given ward, said member may be elected from said additional territory as above provided; and such of said members as shall have been elected by wards having an odd numerical designation, or from territory attached for school purposes to said ward having an odd numerical designation as above provided, shall serve for a term of one year; and such of said members as shall have been elected by wards having an even numerical designation, or from territory attached for school purposes to said ward, having an even numerical designation, as above provided, shall serve for the term of two years; and annually thereafter, as the term of the members elected by said ward, or ward with territory attached for school purposes, as above provided, shall expire, successors shall be elected to hold for the term of two years. The members elected under this act shall hold office until their successors are elected and qualified; provided, that the board of education established by this act shall be, in all respects, the successors of the respective boards whose places they take.

Section 3898. At every annual election for city officers in a city which constitutes a district of the first class, and wherein the board consists of two members for each ward, there shall be elected in each ward, by the qualified electors thereof, one judicious and competent person to serve as a member of the board of education of the district, for two years from the Third Monday of April succeeding his election, and until the election and qualification of his successor. Provided, that at the annual election for city officers held first after a city has been constituted a city district of the first class, with a board to consist of two members from each ward, there shall be elected in each ward of such city by the qualified electors of such ward and of said district entitled to vote in such ward, two persons of the required qualifications to serve as members of the board of education of such district, one for one year, and the other for two years, from the third Monday of April succeeding their election, and until the election and qualification of their successors. And, provided that any elector residing in such district, but not in any ward of such city, shall, if the territory containing his residence has not been attached to any ward for school purposes, as provided in section thirty-nine hundred

be entitled to vote for members of the school board in the ward nearest his residence; and in such case a separate ballot-box and poll-box shall be provided and used as required by section thirty-nine hundred and two, in each ward where any such elector may be entitled to vote.

Section 3906. If the boundaries of the district and the city are identical, or if the territory has been detached from the city and attached to another district, the election shall be conducted exclusively by the judges and the clerks of the city election, but electors residing within the bounds of such detached territory shall not vote thereat; but if territory outside of city limits is attached to the district an election shall also be held for the same purpose in the township from which it was detached and conducted by the judges and clerks of the township election; but only electors residing within the bounds of such territory shall vote thereat; the election to be held at the same time and places as the elections for city and township officers are held.

Section 3950. No joint sub-district which is now, or may hereafter be organized, shall be dissolved, changed, or altered unless by the concurrent action of the boards of education of the several townships having territory included therein; provided, however, that when any board of education in a joint sub-district desires to dissolve, change, or alter the same, the board of education desiring such dissolution, change, or alteration, shall notify, in writing, the boards of education interested of the time when they will meet to consider the proposed dissolution, change, or alteration. The place of meeting shall be at the school-house in such joint sub-district; but if there be none, then at some convenient place in the vicinity of such joint sub-district. If the joint boards fail to meet, or, having met, can not agree upon a dissolution, change, or alteration, (as the case may be,) then the board of education desiring such dissolution, change, or alteration, may appeal to the probate court of the proper county, and the same proceedings shall be had as in case of appeal in the formation of joint sub-districts, so far as applicable, as provided in sections three thousand nine hundred and thirty-five, three thousand nine hundred and thirty-six, three thousand nine hundred and thirty-seven, three thousand nine hundred and thirty-eight, three thousand nine hundred and thirty-nine, three thousand nine hundred and forty, and three thousand nine hundred and forty-one of the Revised Statutes. And any joint sub-district established by proceedings in

the probate court may be dissolved changed, or altered, as provided in this section, at any time.

Section 3958. Each board of education shall, annually, at a regular or special meeting, to be held between the third Monday in April and first Monday in June, determine by estimate, as nearly as practicable, the entire amount of money necessary to be levied as a contingent fund for the continuance of the school or schools of the district, after the State funds are exhausted, to purchase sites for school-houses, to erect, purchase, lease, repair, and furnish school-houses, and build additions thereto, and for other school expenses.

Section 3959. Such estimate and levy shall not exceed, in cities of the first grade of the first class, three and one-fourth mills; provided, however, that the boards of education in said cities may levy one mill additional for every five thousand pupils over and above twenty-five thousand enrolled in the public schools of said cities, which levy, however, shall in no case exceed four mills, and in cities of the second grade, first class, five mills; and in all other districts, seven mills on each dollar of valuation of taxable property.

Section 3967. So much of the contingent fund as may be set apart by a township board for the continuanee of schools after the State funds are exhausted shall be so apportioned by the board that the schools in all the sub-districts of the township shall be continued the same length of time each year; and if the apportionment be not satisfactory to the directors of any sub-district, or a majority of them, they may give notice thereof, in writing, to the county commissioners, who at their first regular meeting for the transaction of business, after the receipt of such notice, shall revise the apportionment, and the amount aforesaid shall be apportioned in a manner determined by the commissioners; but neither the township board nor the commissioners shall reapportion any funds which were apportioned among the sub-districts before any preceding annual settlement, and in making an apportionment of funds the amount set apart for any sub-district shall not be increased or diminished by reason of any deficit or surplus in the funds previously apportioned to such sub-district.

Section 3987. The board of education of any district is empowered to build, enlarge, repair, and furnish the necessary school-houses, purchase or lease sites therefor, or rent suitable school-rooms, and make all other necessary provisions for the schools under its control. Directors of sub-districts shall, under such rules and regulations as the township board of education may prescribe, provide fuel for

schools, build, enlarge, repair, and furnish school-houses, purchase or lease sites therefor, rent school-houses, build and keep in good repair all fences inclosing such school-houses, and make all other provisions necessary for the convenience and prosperity of the schools within their sub-districts; and the township board shall be held responsible in its corporate capacity, for all contracts made by such directors when they are made in accordance with the rules and regulations of the township board, or any resolution thereof.

Section 3987*a*. That the boards of education of cities and villages, and directors of sub-school districts, shall in the months of March, April, May, or November, in the year 1884, and in said months of each year thereafter, in the school yards and grounds under their respective control, plant, or cause to be planted, where the same is not already provided, such number of shade and ornamental trees as will, in their judgment, furnish shade protection for the scholars attending said schools, and beautify said grounds.

Section 2. That the costs and expenses incurred by said boards of education, or directors of sub-districts, as the case may be, shall be paid out of the contingent school fund of said city, village, or sub-district, on the certificate of said boards.

Section 4009*a*. For the purpose of providing such schools of higher grade, any township district, village and special district, situate within the boundaries of such township, may be united together and organized as a special district for high school purposes by a vote of the electors of such township at any general election as herein provided.

Section 4009*b*. Any ten or more of the qualified electors of any township having a village district or special district within its limits, may give ten days notice before any general election that a separate vote will be taken at the next general election in said township, in each of the districts proposed to be so united, on the proposition to unite such village, township district or special district, or any two of said districts for high school purposes. Such notice shall be sufficient, if given by publication in a newspaper published and of general circulation in said township, and by being conspicuously posted in at least three public places in each of the districts interested. At such next general election held after publication of such notice, all electors voting in favor of such union shall have written or printed on their ballots, "Special District for High School Purposes—Yes;" and all electors voting against such union, shall have written or printed on their ballots, "Special District for High School Purposes—

No." If a majority of the ballots cast on the proposition in each of said districts have on them the words "Special District for High School Purposes—Yes," such village, township, and special districts, or any two of said districts shall thereafter be united as a special district for high school purposes; and the judges of such election shall certify to the court of common pleas of the county in which such township is situate, the result of such election, which certificate shall be placed upon the journal of said court; whereupon said court shall appoint three judicious persons, one for one year, one for two years, and one for three years, residents of said township, as the board of education of such special district for high school purposes, one member of such board of education to be elected every year thereafter, to hold said office for three years, or until his successor is elected. Such board of education, when so appointed, shall have all the powers now conferred by law upon other boards of education.

Section 4020. Each board shall determine at a regular meeting by an affirmative vote of a majority of all its members, the studies to be pursued, and the text-books to be used in the schools under its control, but no text-book shall be changed, nor any portion thereof altered or revised, for five years after its adoption. without the consent of three-fourths of all the members elected to the board, given at the regular meeting; and all branches shall be taught in the English language, and each board of education is authorized to purchase direct from publishers or dealers at the lowest wholesale or contract prices, such necessary school text-books and other school supplies as may be determined by the board, and furnish the same to pupils in the schools under its control at cost price, and each board of education is authorized to pay for such necessary school text-books and other school supplies out of the contingent fund at the disposal of the board.

Section 4065. There shall be a State board of examiners, which shall consist of five competent persons, residents of the State, to be appointed by the State Commissioner of Common Schools; the term of office of such examiners shall be three years; and when a vacancy occurs in the board, whether from expiration of the term of office, refusal to serve, or other cause, the commissioner shall fill the same by appointment for the full or unexpired term, as the case demands; but this section shall not be construed to affect the term of office at the time this act takes effect.

Section 4068. Each applicant for a certificate shall pay to the board of examiners a fee of five dollars.

Section 4073. The board may grant certificates for one, two, three, four, and five years, which shall be valid in the county wherein they are issued, except in city and village districts, in which they will not be valid unless indorsed by the President and Secretary of the board of examiners of such districts; and if at any time the recipient of a certificate be found intemperate, immoral, incompetent, or negligent, the examiners, or any two of them, may revoke the certificate, but such revocation shall not prevent a teacher from receiving pay for services previously rendered.

LEROY D. BROWN,
State Commissioner of Common Schools.

Below are given several sections of the Ohio School Laws of interest to teachers and school officers:

SCHOOLS.

Section 4007. Each Board of Education shall establish a sufficient number of schools to provide for the free education of the youth of school age within the district under its control, at such places as will be most convenient for the attendance of the largest number of such youth, and shall continue each and every day school so established not less than twenty-four nor more than forty-four weeks in each school year; and each township Board of Education shall establish at least one primary school in each sub-district under its control.

Section 4008. When, in the judgment of the board, it will be for the advantage of the district to do so, it may organize separate schools for colored children; and boards of two or more adjoining districts may unite in a separate school for colored children, each board to bear its proportionate share of the expense of such school according to the number of colored children from each district in the school, which shall be under the control of the board of education of the district in which the school-house is situate.

Section 4012. In any district composed, in whole or in part, of a city or village, the board may, at its discretion, provide a suiatble number of evening schools for the instruction of such youth as are prevented by their daily vocation from attending day schools, subject to such regulations as the board may, from time to time, adopt for the government thereof.

Section 4013. The schools of each district shall be free to all youth between six and twenty-one years of age, who are children, wards or apprentices of actual residents of the district; and such youth may also be admitted free if they are members of a family of a free-holder, whose residence is without, but whose homestead is partly within such district. Each board of education may admit other persons of like age, upon such terms or upon payment of such tuition as it may prescribe; provided, that in all counties which do not contain a city of the first grade of the first class, in such case there shall be credited on the tuition so charged the amount of school tax in such district, for the current school year, which may be paid by such non-resident pupil or a parent thereof; and the several boards shall make such assignment of the youth of their respective districts, to the schools established by them, as will, in their opinion, best promote the interests of education in their districts.

Section 4014. No pupil shall be suspended from school by a superintendent or teacher except for such time as may be necessary to convene the board of education of the district or the directors of the sub-district; and no pupil shall be expelled except by a vote of two-thirds of such board or directors, and not until the parent or guardian of the offending pupil has been notified of the proposed expulsion, and permitted to be heard against the same; and no scholar shall be suspended or expelled from any school beyond the current term thereof.

Section 4015. Teachers employed in the common schools may dismiss their schools, without forfeiture of pay, on New Year's day, the 4th of July, and Christmas, and on any day set apart by proclamation of the President of the U. S., or the Governor of Ohio, as a day of fast or thanksgiving; 30th of May is now included in above.

Section 4016. The school year shall begin on the 1st day of September of each year, and close on the 31st day of August of the succeeding year; and a school week shall consist of five days, and a school month of four school weeks,

Section 4019. If the directors of any sub-district dismiss any teacher for any frivolous or insufficient reason, such teacher may bring suit against such sub-district, and if, on the trial of the cause, a judgment be obtained against the sub-district, the directors shall certify to the clerk of the board the sum so found due, who shall issue an order upon the township treasurer, to the person entitled thereto, to pay the sum out of any money in his hands belonging to

such sub-district, and applicable to the payment of teachers; and in such suits process may be served on the clerk of the sub-district, and service upon him shall be sufficient.

STATE EXAMINERS.

Section 4066. The board thus constituted may issue two grades of certificates to such as are found to possess the requisite scholarship, and who exhibit satisfactory evidence of good moral character and of professional experience and ability, as follows: First-class, life certificates; second class, for ten years; the latter to be issued to applicants of satisfactory attainments in the branches required for county certificates, and to be valid in any school where such branches only are taught. The clerk of the board shall keep a record of the proceedings, showing the number, date and duration of each certificate, to whom granted, and for what branches of study, and shall report such statistics to the commissioner, annually, on or before the 1st day of October.

Section 4067. All certificates issued by such board shall be countersigned by the commissioner of common schools; and such certificates shall supercede the necessity of any and all other examinations of the persons holding them, by any board of examiners, and shall be valid in any school district of the state, unless revoked by the state board for good cause.

Section 4068. Each applicant for a certificate shall pay to the board of examiners a fee of three dollars.

Section 4074. No person shall be employed as a teacher in a common school who has not obtained from a board of examiners (state, county or city,) having competent jurisdiction, a certificate of good moral character, and that he or she is qualified to teach orthography, reading, writing, arithmetic, geography, English grammar, and the history of the U. S., and possess an adequate knowledge of the theory and practice of teaching; and if required to teach other branches, that he or she has the requisite qualifications; but persons who desire or are expected to teach only special studies, such as music, drawing, painting, penmanship, gymnastics, German, French, or any one of them, may be examined in regard to such study or studies only, and having obtained a certificate of qualification therein, and of good moral character, may be employed to teach such study or studies.

APPENDIX.

The list of places in Ohio of five hundred population and over was obtained from the tenth census and found to number 338. The reports from all have been received and published, except those places in the following list which are not accompanied by a report. Frequent requests were sent for the information, but were not returned; and if any school officer or teacher in places not heard from will take enough pride in their schools to wish to see them represented with the *best* schools of the state the reports will be published. Canal Winchester will not be inserted unless sent by a teacher or a *responsible* member of the School Board. To take the place of reports not inserted a list of four hundred township and special clerks is published, together with state school statistics, educational notes, portions of school laws, etc.
